

HEARSEY FOR CONGRESS

FOR IMMEDIATE RELEASE

February 1, 2018

(Montgomery County, MD): Chris Hearsey, Congressional Candidate for Maryland's 6th District, calls on House Speaker Paul Ryan to immediately remove Representative Devin Nunes (CA-22) from the chairmanship of the House Intelligence Committee.

“Representative Nunes has violated Article I of the Constitution and has abdicated his constitutional duty to represent his constituents in Congress. His sharing of an altered memo with the President violates the separation of powers, undermines the constitutional authority of Congress and its constituent bodies, transgresses House rules, and creates a constitutional crisis that threatens our Republic. I call on the Congressional Ethics Committee and Special Counsel Mueller to investigate the politicization of the House Russia investigation. No longer can the GOP speak, hear, and see no evil. Speaker Ryan must end this charade and remove Representative Nunes from the Intelligence Committee chair immediately. We must restore the rule of law.”

The FBI released a statement on January 30, citing grave concerns about factual omissions that fundamentally altered the accuracy of the memo. President Trump is expected to declassify the memo.
